# 1 Introduction

---

## 1.1 Principles

NHS Digital is a data controller and has a legal duty, in line with the UK General Data Protection Regulation (UK GDPR), to explain why it is using data and what data is being used. Similarly, The Manor Street Surgery has a duty to advise employees of the purpose of personal data and the methods by which their personal data will be processed.

## 1.2 Status

The organisation aims to design and implement policies and procedures that meet the diverse needs of our service and workforce, ensuring that none are placed at a disadvantage over others, in accordance with the [Equality Act 2010](#). Consideration has been given to the impact this policy might have with regard to the individual protected characteristics of those to whom it applies.

This document and any procedures contained within it are non-contractual and may be modified or withdrawn at any time. For the avoidance of doubt, it does not form part of your contract of employment.

## 1.3 Training and support

The organisation will provide guidance and support to help those to whom it applies to understand their rights and responsibilities under this policy. Additional support will be provided to managers and supervisors to enable them to deal more effectively with matters arising from this policy.

# 2 Scope

---

## 2.1 Who it applies to

This document applies to all employees of the organisation and other individuals performing functions in relation to the organisation, such as agency workers, locums, and contractors.

Furthermore, it applies to clinicians who may or may not be employed by the organisation but who are working under the Additional Roles Reimbursement Scheme (ARRS).<sup>1</sup>

## 2.2 Why and how it applies to them

Every staff member should be aware of the employee privacy notice and understand how that information may be used and with whom the organisation will share that information.

---

<sup>1</sup> [Network DES Contract specification 2021/22](#)

The first principle of data protection is that personal data must be processed fairly and lawfully. Being transparent and providing accessible information to persons about how their personal data is used are key elements of the UK General Data Protection Regulation.

### **3 Definition of terms**

---

#### **3.1 Privacy notice**

A statement that discloses some or all of the ways in which the organisation gathers, uses, discloses and manages a person's data. It fulfils a legal requirement to protect a person's privacy.

#### **3.2 Data Protection Act 2018 (DPA18)<sup>2</sup>**

The Data Protection Act (DPA18) will ensure continuity by putting in place the same data protection regime in UK law pre- and post-Brexit.

#### **3.3 Information Commissioner's Office (ICO)<sup>3</sup>**

The UK's independent authority set up to uphold information rights in the public interest, promoting openness by public bodies and data privacy for individuals

#### **3.4 UK General Data Protection Regulation (UK GDPR)<sup>4</sup>**

The GDPR replaced the Data Protection Directive 95/46/EC and was designed to harmonise data privacy laws across Europe to protect and empower all EU citizens' data privacy and to reshape the way in which organisations across the region approach data privacy. The GPDR came into effect in May 2018.

#### **3.5 Data controller**

The entity that determines the purposes, conditions, and means of the processing of personal data

#### **3.6 Data subject**

A natural person whose personal data is processed by a controller or processor

### **4 Compliance with regulations**

---

#### **4.1 UK GDPR**

---

<sup>2</sup> [Data Protection Act 2018](#)

<sup>3</sup> [ICO](#)

<sup>4</sup> [GDPR](#)

In accordance with the UK GDPR, this organisation will ensure that information provided to subjects about how their data is processed will be:

- Concise, transparent, intelligible and easily accessible
- Written in clear and plain language, particularly if addressed to a child
- Free of charge

## **4.2 Article 5 compliance**

In accordance with Article 5 of the UK GDPR, this organisation will ensure that any personal data is:

- Processed lawfully, fairly and in a transparent manner in relation to the data subject
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes
- Adequate, relevant, and limited to what is necessary in relation to the purposes for which it is processed
- Accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that is inaccurate, having regard to the purposes for which it is processed, is erased or rectified without delay
- Kept in a form that permits identification of data subjects for no longer than is necessary for the purposes for which the personal data is processed
- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage using appropriate technical or organisational measures

Article 5 also stipulates that the data controller shall be responsible for, and be able to demonstrate compliance with, the above.

## **4.3 Communicating privacy information**

At The Manor Street Surgery, the organisation's staff privacy notice is displayed on our website, through signage in the staff room and in writing if requested. We will:

- Inform staff how their data will be used and for what purpose
- Allow staff to opt out of sharing their data, should they so wish

# **5 Further information**

---

## **5.1 Privacy notice checklists**

---

The ICO has provided a privacy notice checklist that can be used to support the writing of the organisation's privacy notice. The checklist can be found by following this [link](#).

## **5.2 Privacy notice template**

A privacy notice template can be found at [Annex A](#).

It is recognised that the type and style of privacy notices may vary. However, this privacy notice template has been reviewed as appropriate by a current data protection officer. It is acknowledged to be extensive and covers all eventualities that may occur around information governance.

## **6 Summary**

---

It is the responsibility of all staff at The Manor Street Surgery to ensure that they understand what information is held about them and how this information may be used.

Furthermore, the organisation must adhere to the DPA18 and the UK GDPR to ensure compliance with extant legal rules and legislative acts.
